

## MOLTEX OUTDOOR CAR COVER

The Moltex material provides four layers of protection providing total rain resistance without condensation. Moltex is formed with an outer fibre layer, a perforated polyurethane layer, a second fibre layer and finished with the unique soft fleece inner layer. Fully breathable, can be put on a wet car. 99.9% waterproof. Semi tailored shape with elasticated ends & sewn in straps for excellent and secure fitting. UV protection avoids paint fade & deterioration of rubber seals. With a storage bag.

## SUPERTEX INDOOR CAR COVER

Supertex has many beneficial qualities for protecting your car. Soft fleece lining gives a quilted feel for additional protection against knocks & potential scratches. Semi tailored. 100% dustproof. Water resistant. Very breathable. Red, Blue or Green. (SXL size only in Blue. GT size only in Red or Green). With storage bag. Available with the option of the Lotus logo, or the logo and Lotus model name

## SEAT COVER

Hard wearing polyester. They simply slip over the back and base of your seat. One size fits all seats. Machine washable. Green with Lotus logo.

## TYRE TRAINER

If you don't use your car regularly or store it during the winter a Tyre Trainer will help prevent flat spots forming. Tough plastic. Sold in pairs.

## PRO TYRE PRESSURE GAUGE

0-60 psi digital pro gauge. Calibrated to 0.001 psi and the pressure hold system makes them easy to read. The 11" flexi hose has a brass end with swivel top for easy access. With rubber storage case.

## SELF ADHESIVE CARBON FIBRE

Real carbon fibre matting laminated with tough 3M glue to guarantee secure fixing to any panel. 50cm x 25cm. Larger sizes up to 100cm x 120cm available.

## CAIR-O-PORT INDOOR VEHICLE STORAGE

Small 4.4m x 2m. Med 5m x 2.2m. Indoor use only. Includes fans and transformer. External lightweight steel frame, state of the art materials and the benefit of three electric fans combine to make it the most efficient storage system available.

## THE ABSORBER

This revolutionary micro-fibre drying skin will hold an amazing amount of water. Can be used on anything from cars to drying the family pet! Machine washable. Supplied in a plastic storage tube, the Absorber can be stored damp - unlike chamois. Measures approx 46cm x 24cm.

## CTEK 0.8 BATTERY CONDITIONER

Constantly monitors the voltage after it has charged the battery to 14.4v. It will then only charge the battery when the voltage drops to 95% efficiency. Eliminates the danger of over charging, so can be left connected for long periods. Monitors voltage and turns on & off automatically. Revives, charges and checks. With free connector kit for difficult to reach batteries. For batteries from 1.2Ah to 100Ah. Maximum charge voltage of 14.4v - 0.8amps. Can charge negative & positive earth vehicles. Waterproof case. 5 year guarantee

## CTEK 3.8 BATTERY CHARGER & CONDITIONER

All the benefits of the 0.8 PLUS will charge flat batteries. Will recover slightly sulphated batteries. For use on batteries from 1.2Ah to 120Ah. Maximum charge voltage of 14.7v - 3.6amps.

## WING PROTECTION COVER

Perfect for protecting paintwork when working on your car. Made from hard wearing polyester with a soft self-gripping anti slip material on the reverse which clings to the panel. Machine washable.

## CAR MATS

These Premier mats are woven at 800 threads per inch and come with a leatherette edging. Colour options for the mat and edging are Light Grey, dark Grey, Royal Blue, Navy Blue, Red, Green, Beige and Black. The mats can also be supplied with the Lotus logo (no colour infills - just the outlines) which can be produced in any colour thread. A heel pad is also available.

## SOFT TOP COVER

Designed to fit over the roof and screen area of soft top cars, these lightweight covers keep rain out and stop prying eyes from peering in. Constructed in the same fashion as our Moltex outdoor covers but without the fleece inner layer they feature large elastic securing straps and can be folded up into a compact little bag. Easy to fit and have velcro openings for door mirrors.

## CAR DEHUMIDIFIER

If your car is left outside or your garage isn't 100% dry then you'll be interested in this product. It's a bag of re-usable desiccant crystals with an indicator on the bag to show when it needs re-charging. It can safely be left inside your car and will remove any excess moisture from the interior and keep it in tip-top condition.
