

Volume of  
 chamber  
 held by gas volume.

= combustion chamber volume

= head gasket volume

= top of piston volume.

Bore = 82.55 mm

Stroke = 72.75 mm.

A = head gasket crushed thickness? (estimate 0.035")

B = deck height? (estimate 0.035")

Volume of chamber held by gas volume.

Volume of chamber held by gas volume.
