LOTUS ELAN GT CONVERSION

designed by Barry Wood and built by 'SHAPECRAFT'

An attractive coupé version of the Lotus Elan 1600 Sports car. Available for both racing and touring, this conversion increases the speed of the 105 BHP Elan to over 120 MPH without impairing the acceleration times.

Specification:—A lightweight aluminium top section, resin bonded to the fibreglass body, shaped to give the best possible streamlining. The interior roof is lined and finished in rexine and the exterior is sprayed to match. Optional extras include pile carpets and knock-on wire wheels.
