DATES	NOTE
	<p>An original S1 option, but had no Lotus code. Was a Standard Triumph colour, ref 378TR. Ditzler 12163 PPG: Powder Blue 12163; Martin Senour: Powder Blue 25105; ICI: Powder Blue 8013</p> <p>An original S1 option, but had no Lotus code. Was a Jaguar colour</p> <p>An original S1 option, but had no Lotus code. Was an Austin colour</p> <p>An original S1 option, but had no Lotus code. Also an Elite colour</p>
Late 69-Jan 73	A BMC colour (GN-13BMC), offered on some Federal Elans & +2s , per sales sheet records. Perhaps a 'continuation' of BRG?
tbc	A Triumph colour
Early 26s	Not the same as L01
Oct 62 - Oct 70	A Jaguar colour. Jaguar used three variants of BRG throughout the 1960s, Spruce Green is the correct one
Mid 67 - Oct 70	A Triumph colour
Mid 67 - Oct 68	A Triumph colour
Oct 62 - Oct 73	This colour was reportedly unique to Lotus; but also a Ford colour - 'AP'. Also an Elite colour.
Mid 67 - NK	A Rootes colour - '39'
Mid 67 - Oct 70	Also Porsche Sand
Mid 67 - NK	A Lotus specific colour - the only one?!
Jan 67 - NK	Used in engine compartment, except Bourne bodied S1s, which had grey compartment. Also used in boot, body sill, air extractor boxes and air plenum chamber
Oct 68 - Oct 70	A Porsche colour
Oct 68 - Oct 70	A Porsche colour
Oct 70 - NK	Maroon in brochure. A Jaguar colour, also known as Burgundy
Oct 70 - NK	Metallic Blue in brochure. Also known as Scandinavian Blue - a Volvo colour; also Rolls Royce and Royal Enfield colours. <i>From my info, Lagoon Blue was</i>

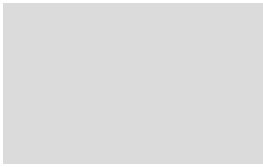

Oct 70 - Jul 73	Lime Green in brochure. A Jensen colour
Oct 70 - Oct 72	Light Orange in Brochure. A BMW colour
Sep-72	Special order only on Elans. Also Polar Black. Not an "official" Sprint colour. Was used on the JPS Plus 2s
Oct 72 - Jan 74	Ford Tawny
Oct 70 - Dec 74	Elan Sprint bumpers and Plus 2 S130 roof in metallic
Oct 62 - Jan 71	S1, S2, S3 & S4 bumpers and wheels
Mar 73 - Oct 73	Lotus records show Plus 2's in this colour listed from Nov 72. It appears possible that this colour became Laurel Green on later cars; the colours are almost identical
Jul 73 - Oct 73	Also Ice Blue - an Austin Healey colour in 50s, Rover colour in 60s, Triumph colour in 70s. Ford XSC 1690C is the correct shade
Oct 72 - NK	Also Siberian Sable. Jaguar and Rolls Royce colours
Oct 72 - Jul 73	MG, Morgan and Jaguar colours
Oct 73 - NK	Sometimes Roman Purple - Porsche and Aston Martin colours in 70s
Oct 73 - NK	Renamed Canadian Green in 1974. A Rootes colour. Record of Nov 72 car in this colour from Lotus
Oct 73 - Mar 74	Also Burmese Brown - a Chrysler colour. Lotus report no records of a Plus 2 being completed in this colour
Oct 73 - Jan 74	Red colour. Lotus report no records of a Plus 2 being completed in this colour
Oct 73 - NK	Also Andes White. Vauxhall colour
Oct 73 - NK	Ford colour
73-74?	Rare and no Lotus code. Was a Triumph colour 69-71 and a Ford colour. See Mid Green LO17 above
1970	A handfull of +2 cars are listed with this colour; may refer to an early use of one of the above greens?
Jan 70-Feb 73	A small batch of +2 cars painted by the factory, mostly for the US in 1970 (2 in 72, 2 in 73) Plus 2 roof only Plus 2 only This is the same as above with Type 50 part no.  Engine? Has Type 36 part no.

concentrated on becoming a world player in the Automotive Finishes arena. Key acquisitions in France and Italy formed the basis of PPG's growth. In 1962 PPG bought a controlling interest in Peintures CORONA, a French coatings and resins manufacturer whose major business was in the automotive market. Thereafter, PPG acquired Italtel, a Milan based coatings and resins manufacturer. The next wave of expansion began with the acquisition of PPG Deutschland (1984), PPG Italia (1984), PPG UK (1985) and Dong Ju in Korea (1987). In the 90's PPG acquired Akzo Coatings in Europe, Argentina and Brazil. Following closely behind were the purchases of BOLLING & KEMPER in Germany, ICI Tianjin in China. Today...PPG is recognized as one of the world leaders in automotive finishes.

aid by BASF. Being coatings specialists with more than 100 years of experience and also the world's top experts in automotive refinishing, Glasurit offers professional support in matters concerning the paintwork or refinishing of their cars – in the form of Glasurit Classic Car Colors. Glasurit Classic Car - Find your matching colour in a matter of seconds. This system can be used to find the matching colour for refinishing nearly any car. It offers a good basis for solving a variety of refinishing problems.

When Lotus tried a series of new and experimental paint finishes; sometimes complete cars were painted in batches by outside contractors. Lotus dealers in primer, which allowed dealers to offer custom colours. Lotus would spray a car any colour the owner fancied. Lotus 'L' is the paint used on the Elan. At the time there were two suppliers to the factory, Pinchin, Johnson and ICI. Pinchin, Johnson was taken into their paints division when they bought International Paint. ICI was taken over by Nexa Autocolor.

By PPG. They have stood as a market-leading paint brand in the vehicle refinishing industry for many years, with specialist ranges such as Aquabase, the world's first waterborne basecoat, launched in 1992. In mid-2000 Nexa Autocolor introduced ground breaking 2K to follow the introduction of metallic effect pigments on the industry with products such as Aquabase, the world's first waterborne basecoat, launched in 1992. In mid-2000 Nexa Autocolor introduced next-generation waterborne basecoat gives improved application and blending qualities that deliver a "Right First Time" match to the Nexa Autocolor brand is one of the world's leading refinishing paint brands, available in at least 147 countries through networks of distributors.
